— ATLÉTICO DE MADRID —

PROGRAM DESIGNED AND POWERED BY:  
resources for education & advising in linguistics

# GENERAL DESCRIPTION OF THE PROGRAM

Resources for Education & Advising in Linguistics offers a **Football + Spanish Summer Camp for children** and teens between 8\* and 16 years old.

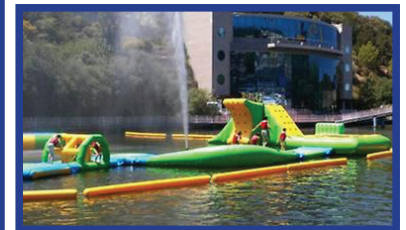

**Our program combines football trainings, provided by professional coaches of Atlético de Madrid** and an immersion program for learning Spanish provided by the team of the Centre of Spanish of University of Madrid.

The main goal of this program is to focus the training and technification of football with the learning Spanish through sport and a variety of leisure and communicative-driven activities.

However, **all our teachers can speak English** and our 24/7 caretakers are selected upon students spoken languages.

As a residential campus in which other Spaniards will be staying, there will be a possibility of **real exchange with natives**. By football and games in a Spanish speaking environment, the students will be encouraged to use Spanish as a vehicle for communication.

Groups between 8 and 14 will be created depending on ages, levels of Spanish and football.

**The general schedule will include 3 hours of football training in the mornings and activities of communication, games, music, drama, contests and variety of leisure in the afternoons and evenings.**

Alternatively and upon request, Spanish lessons can be offered for accompanying parents or siblings who do not choose football as central activity, during the mornings in parallel to the trainings.

Specifically for the adults interested in visiting the campus, an option of a cultural and sports program (independent from childrens) can be offered. There will be specific arrangements for visiting the trainings.

# THE VENUE
